Hello Melissa,

I'm looking into some potential construction work in Jefferson and had a quick question about roll off dumpster services. Are residents or contractors doing work there required to use Republic Services? Or are there other options?

Thank you,
[REDACTED]

Good morning,

Thank you for reaching out. Republic is our contract commercial provider for the city.

For construction projects, if a dumpster is needed that will require placement on public property or right of way, then you will need to go before city council for approval. Additionally, please reach out to us prior to doing construction as we have hired a company to assist with the permitting and inspections and processes are changing.

Thank you,

Melissa Boyd,

City Administrator/City Secretary

[305 E. Austin St.](#) (Temporary Office Location)

Jefferson, TX 75657

Thank you for the quick response. The homeowner has found a few local dumpster providers with much lower rates and 5-star service. Can the homeowner order from them to help keep their project costs down?

I am sorry, Republic is only approved vendor with the City that is set by ordinance.
